

# Quick Start EVK-NINA-B1

## 1. Overview

## 2. Setup

Download the EVK-NINA-B1 software and documentation from [www.u-blox.com/evk-downloads](http://www.u-blox.com/evk-downloads) and install the software. See notes on back of the card.

1. Connect the EVK-NINA-B1 evaluation board to your PC using the included USB cable.
2. Verify whether the USB drivers are installed successfully.  
**NOTE:** Refer to the EVK-NINA-B1 User Guide in case the drivers are not installed automatically.
3. Download the latest firmware to the NINA-B1 module using s-center evaluation software.

### 3. Installation

To download the EVK-NINA-B1 software package and run the installation:

- An Internet connection is required. Supported Windows operating systems: Vista, 7, and 8.
- Download the s-center software.
- Run the s-center .exe file and follow the installer instructions.
- When the installation is complete, you will find the s-center menu under the Windows Start button,  
*All Programs > u-blox*
- In the s-center menu, you will find the s-center application, user guide and uninstall options.

### 4. Interfaces

The EVK-NINA-B1 includes a USB cable for communication and powering the board. The variant EVK-NINA-B111 has a U.FL connector for the Bluetooth low energy RF interface. The variant EVK-NINA-B112 has an onboard antenna.

Refer to the EVK-NINA-B1 User Guide for a comprehensive description of the evaluation kit features and functionalities.
