3   Customer impact and recommended action

Customers using NEO-6P, please contact sales/support for recommendations on optimal successor product.

With NEO-6V, it is recommended that the customers migrate to the latest u-blox M8 successor product that has the same form factor as its predecessors. The u-blox M8 platforms use the latest advanced GNSS technology and offer improved performance and a versatile product portfolio compared with the legacy NEO-6V product.

Refer to the Hardware Integration Manual mentioned in section Reference documents for details about migrating from NEO-6V module to NEO-M8L module. Please consult u-blox's support team for more migration-related information and guidance.
