### 3 Description

Figure 1 shows the revised batch label for the u-blox modules listed above. This update is required to harmonize the label style across different product families and to reserve more space for product specific certification marking at the bottom of the label.

The existing label content including bar codes remain unchanged. This revision is limited to the smaller font size, shift of the QR code to the left corner, and removal of the note on Level of Interconnection (LOI).

Figure 1 Example of current label (left) vs. new label (right)

#### **4 Schedule**

The reels are shipped with the new batch label as of calendar week 33, 2024.

#### **5 Customer impact and recommended action**

Customers are advised to review the updated documentation provided below, in particular [Section 2.6 - Shipping labels](#). Additionally, adjustments may need to be made to customer's logistics and to incoming inspection procedures to account for the font change.
